FOR OUTDOOR PROGRAMS RENT THE COMMUNITY CLIMATEGARDEN!

Our enthusiastic green-community made the first Climategarden of Józsefváros happen at the neighbour plot of the Community House. From spring to autumn, the garden can also be rented for public or private programs, and our gardener activists are happy to talk about the goals, results and concept of the project.

A garden has a 30m² roofed terrace, which is ideal for open-air meetings, community programs and workshops. We have wifi, lighting and sockets here, washrooms are available in the house, and catering can be provided here on request.

To book the garden, write us an email, and ask for a unique price offer!
